

6RB2100-0NA01

Industrial automation components

Manufacturer	Siemens
Catalog number	6rb2100-0na01
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Product Type	SIMODRIVE 210 DC Feed Drive PCB
Control Type	Analog
Axis Support	1 Axis
Discontinuation Date	October 8, 2009
Repairability	Repairable

Description

The Siemens 6RB2100-0NA01 is a SIMODRIVE 210 DC Feed Drive PCB designed for precise control in industrial applications. This analog control system supports one axis, providing detailed motion management. Manufactured in Germany, it is recognized for its reliability and performance in various industrial settings. The product has been discontinued by the manufacturer since October 8, 2009, but remains a viable option due to its repairability. Users can opt for repair services to extend the equipment's lifespan effectively. The 6RB2100-0NA01 is compatible with the SIMODRIVE 210 system, offering seamless integration for users seeking to maintain or upgrade their existing setups.
