Manufacturer	Siemens
Catalog number	6rb2130-0fd00
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Product Type	SIMODRIVE 210 DC-VSA FBG Power Module
Rated Current	30 A
Peak Current	90 A
Number of Axes	1
Product Series	SIMODRIVE 210

Description

The Siemens 6RB2130-0FD00 is a power module from the SIMODRIVE 210 series, designed for precise control of DC motors in industrial automation applications. This module operates with a rated current of 30 Amps and a peak current of 90 Amps, supporting single-axis operation.

It is engineered to deliver reliable performance in demanding environments, ensuring efficient motor control for applications such as material handling, robotics, and specialized machine tools. The 6RB2130-0FD00 integrates seamlessly into the SIMODRIVE 210 system, offering robust power management and control capabilities essential for advanced automation systems.
