

6SC6100-0NA01

Industrial automation components

Manufacturer	Siemens
Catalog number	6sc6100-0na01
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	0.18 kgs
Product Type	Analog Control Board
Product Family	SIMODRIVE 610
Dimensions	27 cm x 8 cm x 40 cm
Weight	0.38 kg
Discontinued	Yes

Description

The Siemens 6SC6100-0NA01 is an analog control board designed for precise management of a single axis within the SIMODRIVE 610 AC-FDD system. Engineered for demanding industrial environments, this Analog Printed Circuit Board (APCB) delivers reliable and accurate control, making it suitable for production lines that require high levels of precision and stability. Manufactured in Germany, the 6SC6100-0NA01 is known for its robust design and high precision in industrial applications. Its compact dimensions and lightweight construction facilitate easy integration into existing systems, while its durable build ensures longevity and consistent performance. This component is ideal for applications in automotive, aerospace, power generation, and electronics industries, where precise motion control is essential. Please note that the 6SC6100-0NA01 is no longer available for purchase, as it was discontinued on September 30, 2012. For support or repair services, please contact your local Siemens office.
