Manufacturer	Siemens
Catalog number	6sc6100-0nc21
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Manufacturer	Siemens
Part Number	6SC6100-0NC21
Product Type	Analog Control Board
Product Family	SIMODRIVE 610
Axes Controlled	3 axes

Description

The Siemens 6SC6100-0NC21 is an analog control board designed for the SIMODRIVE 610 series, facilitating precise control of up to three axes in industrial automation systems. This component is integral to applications requiring accurate feedback and control, ensuring reliable performance in demanding production environments.

Constructed with high-quality materials, the 6SC6100-0NC21 offers durability and consistent operation. Its compatibility with various SIMODRIVE modules makes it a versatile solution for both new installations and maintenance of existing systems.

This board is particularly suitable for industries such as automotive, packaging, and food processing, where precision and reliability are paramount. By integrating the 6SC6100-0NC21, businesses can enhance the efficiency and dependability of their automation processes, leading to improved productivity and reduced downtime.
