

6SC6100-0SA21

Industrial automation components

Manufacturer	Siemens
Catalog number	6sc6100-0sa21
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.01 kgs
Voltage	AC
Product Type	Module
Product Type	SIMODRIVE 610 AC Feed Drive Module
Dimensions	27 cm x 8 cm x 40 cm
Weight	0.20 kg
Axes Supported	3
Axes Supported	3

Description

The Siemens 6SC6100-0SA21 is a SIMODRIVE 610 AC Feed Drive module designed for precise control in industrial automation applications. This module supports three axes, providing high precision and efficiency for complex machinery operations. Manufactured by Siemens, a leader in industrial automation, the 6SC6100-0SA21 is engineered to meet the demands of modern manufacturing environments. Key features include its compact dimensions of 27 cm x 8 cm x 40 cm and a weight of 0.20 kg, facilitating easy integration into existing systems. The module operates with an AC voltage input, aligning with standard industrial power supplies. As part of the SIMODRIVE 610 series, it offers compatibility with other Siemens components, ensuring seamless integration and reliable performance. This module is ideal for applications requiring precise multi-axis control, such as CNC machines, robotics, and automated assembly lines. Its robust design and Siemens' reputation for quality make it a dependable choice for enhancing automation processes.
