Manufacturer	Siemens
Catalog number	6sc6110-0ex05
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Product Type	Parameter Module
Product Family	SIMODRIVE 611 (IND)
Brand	Siemens
Part Number	6SC6110-0EX05
Application Area	Industrial Automation

Description

The Siemens 6SC6110-0EX05 is a parameter module designed for the SIMODRIVE 611 (IND) system, specifically tailored for sinusoidal operation. This module plays a crucial role in configuring and optimizing drive parameters, ensuring precise control and performance of industrial machinery.

Its application is vital in settings where accurate motor control and system stability are paramount. Key characteristics include its compatibility with the SIMODRIVE 611 (IND) system and its sinusoidal operation mode, which contributes to smoother motor performance and reduced mechanical stress.

This module is essential for industries requiring high-precision drive systems, such as manufacturing and automation sectors.
