

6SC6130-0FE01

Industrial automation components

Manufacturer	Siemens
Catalog number	6sc6130-0fe01
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.41 kgs
Current	60 A
Relay Specifications	60 A
Product Type	Power Unit
Series	SIMODRIVE 610
Output Current	30/60 A
Dimensions	28 x 45 x 23.5 cm
Weight	3 kg

Description

The Siemens 6SC6130-0FE01 is a power unit from the SIMODRIVE 610 series, designed for efficient motor and drive control in industrial automation systems. This module supports a 30/60 A output for single-axis operations, making it suitable for various industrial applications. Originating from Germany, this drive module is optimized for performance and reliability in high-demand environments, ensuring adherence to the highest engineering standards. With its robust design and precision engineering, this drive unit serves as a critical component for maintaining efficient and controlled operations. Although the 6SC6130-0FE01 is in the final year of support, it remains fully repairable, offering advantages over complete replacement. Opting for repair can significantly extend its operational lifespan, ensuring continued functionality even beyond its phase-out date of September 30th, 2012. UNIS Group can perform these repairs, providing a cost-effective and sustainable solution to enhance the usability of your current systems. This approach supports both economic and environmental benefits by maximizing the value and longevity of existing equipment.
