Manufacturer	Siemens
Catalog number	6sc9811-4bf70
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Brand	Siemens
Part Number	6SC9811-4BF70
Product Type	Control and Regulation Module
Compatible Devices	6SC36/37 Series Inverters
GTO Rating	100 to 500 kVA

Description

The Siemens 6SC9811-4BF70 is a control and regulation module designed for use with Siemens' SIMOVERT-P inverters, specifically tailored for devices in the 6SC36/37 series. This module is integral to the Inverter Control System (ICS), facilitating precise control and regulation of the inverter's operations.

It is compatible with GTO (Gate Turn-Off) devices rated between 100 to 500 kVA, ensuring efficient performance in medium to high-power applications. The 6SC9811-4BF70 is engineered to enhance the reliability and functionality of Siemens' drive systems, making it a crucial component for maintaining optimal operation in industrial automation settings.

Its robust design and compatibility with various Siemens inverters underscore its significance in the realm of industrial automation.
