Product type	Industrial automation components
Status	Active product

Technical specification

Manufacturer	Siemens
Part Number	6SC9844-0JF10
Product Type	Inverter Phase Module
Dimensions	88 cm x 88 cm x 88 cm
Weight	19 kg

Description

The Siemens 6SC9844-0JF10 is a refurbished inverter phase module designed for integration into Siemens industrial automation systems. This component is compatible with various Siemens converters, including models 6SE3615, 6SE3620, 6SE5215/30, and 6SE5220/40.

It plays a crucial role in the operation of these converters, ensuring efficient power conversion and system stability. The module is housed in a robust enclosure measuring 88 cm in height, 88 cm in length, and 88 cm in width, with a weight of 19 kg, making it suitable for industrial environments where space and durability are essential.

This refurbished unit offers a cost-effective solution for maintaining or upgrading existing Siemens automation systems, providing reliable performance and longevity.
