Manufacturer	Siemens
Catalog number	6se1116-4wb02
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Product Type	Transistor Pulse Rectifier Module
Product Family	SIMOVERT P
Dimensions	80 cm x 54 cm x 120 cm
Weight	75.00 kg
Product Series	SIMOVERT P

Description

The Siemens 6SE1116-4WB02 is a component from the SIMOVERT P series, designed for industrial automation applications. This transistor pulse rectifier module is engineered to provide efficient power conversion and control in various industrial settings.

Its robust construction ensures reliable performance in demanding environments, making it suitable for applications requiring precise and consistent power management. The module's design emphasizes durability and efficiency, aligning with Siemens' commitment to quality and innovation in industrial automation solutions.
