Manufacturer	Siemens
Catalog number	6se1210-2aa02
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Power Rating	10 kVA
Voltage	380/415V
Frequency	50/60Hz
Protection Class	IP 00
Product Type	SIMOVERT P Transistor Pulse Converter
Input Voltage	380/415V
Input Frequency	50/60Hz
Brand	Siemens

Description

The Siemens 6SE1210-2AA02 is a SIMOVERT P Transistor Pulse Converter, designed for industrial automation applications requiring reliable and efficient power conversion. This built-in unit operates at a power rating of 10 kVA, suitable for three-phase AC systems with voltages of 380/415V and frequencies of 50/60Hz.

It features a protection class of IP 00, indicating suitability for indoor use without exposure to water or dust ingress. The device is engineered to provide precise control and conversion of electrical power, making it ideal for integration into various industrial machinery and automation systems.

Its robust construction ensures durability and consistent performance in demanding operational environments.
