Manufacturer	Siemens
Catalog number	6se1216-2aa02
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Brand	Siemens
Part Number	6SE1216-2AA02
Category	Industrial Automation Components
Product Type	Transistor Pulse Converter
Series	SIMOVERT P
Input Voltage	380/415 V
Frequency	50/60 Hz
Power Rating	16 kVA
Protection Degree	IP00

Description

The Siemens 6SE1216-2AA02 is a component from the SIMOVERT P series, a line of industrial automation products designed for power conversion applications. This model is part of Siemens' extensive range of automation components, known for their reliability and performance in various industrial settings.

The SIMOVERT P series is recognized for its advanced technology and robust design, catering to the needs of modern industrial automation systems. For detailed specifications and applications, consulting Siemens' official documentation or contacting authorized Siemens distributors is recommended.
