Manufacturer	Siemens
Catalog number	6se6-436-5ue33-7ea0
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Manufacturer	Siemens
Part Number	6SE6 436-5UE33-7EA0
Product Type	Converter Module
Input Voltage	575V
Output Power	37 kW
Enclosure Rating	IP20
Design Type	Unfiltered (UF)

Description

The Siemens 6SE6 436-5UE33-7EA0 is a high-performance converter module designed for industrial automation applications. Manufactured by Siemens, this module is part of the MM436 series, known for its robust construction and reliability.

Operating on a 3-phase AC input of 575V, it delivers a power output of 37 kW, making it suitable for demanding industrial processes. The module features an IP20 enclosure, providing adequate protection for indoor environments.

Its unfiltered (UF) design ensures efficient operation without additional filtering components. This converter module is engineered to handle high power loads, ensuring consistent performance in industrial settings.

Its compatibility with Siemens' automation systems makes it a valuable component for enhancing operational efficiency and reliability.
