Manufacturer	Siemens
Catalog number	6se6020-1ba00
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Efficiency	≥ 95%
Mains Power Factor	~1 unitless
Ambient Temperature Range	0 to 40 °C
Protection Class	IP 20 unitless
Shock Resistance Class	12 unitless

Description

The Siemens 6SE6020-1BA00 is a high-performance pulse converter designed for industrial automation applications. Manufactured by Siemens, this device offers precise control and efficient operation for various automation processes.

Key features include a high efficiency of ≥ 95%, a mains power factor close to 1, and a safe ambient temperature range for operation from 0 to 40 °C. The device is built with a protection class of IP 20, ensuring durability and reliability in industrial environments.

Additionally, it boasts a shock resistance class of 12 (IEC 68, DIN 40046), making it suitable for demanding operational conditions. The 6SE6020-1BA00 also provides robust interference protection, adhering to IEC 801-4, class 4; IEC801-2, 16kV; and IEC801-3, 10V/m standards.

This makes it an ideal choice for applications requiring high performance and resilience in industrial settings.
