Ask about this product

Manufacturer	Siemens
Catalog number	6se6400-3cc02-6bb0
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Voltage Range	200V to 240V AC V
Current Rating	22.8A
Dimensions	213 mm (H) x 150 mm (W) x 50 mm (D)
Net Weight	2.2 kg
Compliance	cURus

Description

The Siemens 6SE6400-3CC02-6BB0 is a line reactor designed for industrial automation applications, particularly for use with SINAMICS V20, SINAMICS G110 compact inverters, and MICROMASTER 4 drives. Operating within a voltage range of 200V to 240V AC and handling a current of 22.8A, this reactor effectively smooths voltage peaks, bridges commutation dips, and reduces harmonic effects on both the inverter and the power supply system.

Its compact dimensions of 213 mm in height, 150 mm in width, and 50 mm in depth, along with a net weight of 2.2 kg, facilitate easy integration into existing systems. The reactor is compliant with cURus standards and features a degree of protection rated at IP20, ensuring reliable performance in various industrial environments.
