Manufacturer	Siemens
Catalog number	6se7033-2ed83-2nb1
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Manufacturer	Siemens
Part Number	6SE7033-2ED83-2NB1
Product Type	AFE Supply Base Module
Current Rating	210 A to 315 A
Napięcie zasilania	400 V
Components Included	VSB, Precharging Contactor, Line Contactor

Description

The Siemens 6SE7033-2ED83-2NB1 is a SIMOVERT MASTERDRIVES AFE Supply Base Module designed for AFE rectifier/regenerative units. It supports current ratings from 210 A to 315 A at 400 V, making it suitable for high-power applications requiring efficient power conversion and regeneration.

The module includes essential components such as the VSB (voltage source bus), precharging contactor, and line contactor, ensuring reliable operation and protection of the drive system. This module is ideal for industrial automation systems where energy efficiency and regenerative braking are critical.
