

6SE7090-0XX84-0AJ0

Industrial automation components

Manufacturer	Siemens
Catalog number	6se7090-0xx84-0aj0
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.45 kgs
Product Type	Drive Module
Product Family	SIMOVERT MASTERDRIVES
Application Area	Industrial Automation
Dimensions	200 mm x 230 mm x 80 mm
Weight	0.45 kg

Description

The Siemens 6SE7090-0XX84-0AJ0 is a specialized drive module designed for integration with the CU2 control unit within the SIMOVERT MASTERDRIVES series. This module, known as the MWH board, plays a critical role in ensuring efficient motor and drive control, making it essential for various industrial automation applications. Manufactured in Germany, it reflects Siemens' commitment to quality and precision engineering. Despite its end-of-life status as of May 8, 2008, the 6SE7090-0XX84-0AJ0 remains a valuable component in existing systems, offering reparability that extends its operational lifespan. This feature provides a cost-effective and environmentally friendly alternative to replacement, ensuring continued functionality in industrial settings. The module's compact design and robust performance characteristics make it a reliable choice for maintaining and enhancing automation processes.
