

6SL3055-0AA00-5AA0

Industrial automation components

Manufacturer	Siemens
Catalog number	6sl3055-0aa00-5aa0
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.98 kgs
Industrial System	sinamics
Product Type	Sensor
Application Area	Motion Control Systems
Product Family	SINAMICS S120
Weight	0.98 kg
Manufacturer	Siemens
Part Number	6SL3055-0AA00-5AA0
Category	Podzespoły automatyki przemysłowej

Description

The Siemens 6SL3055-0AA00-5AA0 is a sensor module designed for the SINAMICS S120 drive system, specifically the SMC10 sensor board. This module is intended for evaluating resolvers without the DRIVE-CLiQ cable, making it suitable for applications requiring precise position and speed feedback in motion control systems. Key features include its compatibility with the SINAMICS S120 system, its role as a resolver evaluation board, and its design without the DRIVE-CLiQ cable, which may be advantageous in certain configurations. This module is ideal for integration into industrial automation systems where accurate sensor feedback is essential for optimal performance.
