Description

The Siemens 6SL31000DC255AA0 is a SINAMICS S120 booksize DC link smoothing filter designed to enhance the performance and reliability of industrial automation systems. Operating at a power rating of 55 kW, this component effectively stabilizes and smooths the DC link voltage, ensuring consistent operation of connected drive systems.

Its compact booksize design allows for efficient integration into various industrial setups, optimizing space utilization. The filter is compliant with RoHS standards, reflecting Siemens' commitment to environmental responsibility.

This product is ideal for applications requiring reliable DC link voltage stabilization in automation processes.
