

6SL3120-2TE13-0AA0

Industrial automation components

Manufacturer	Siemens
Catalog number	6sl3120-2te13-0aa0
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	2.47 kgs
Current	3 A
Industrial System	sinamics
Relay Specifications	3 A
Voltage	600 V
Product Type	Motor
Signal Type	600
Signal Level	600 V

Description

The Siemens 6SL3120-2TE13-0AA0 is a high-performance double motor module from the SINAMICS S120 series, engineered for precise control in demanding industrial applications. Designed to manage two separate motors simultaneously, this module is ideal for multi-axis systems where space efficiency is crucial. It operates with a DC input voltage of 600 V and delivers an output of 3 A per motor, ensuring reliable power distribution. The module features internal air cooling, maintaining optimal operating temperatures during continuous use. Communication is facilitated through the DRIVE-CLiQ interface, enabling seamless integration and commissioning within existing systems. Applications include machine tools, printing presses, and packaging equipment, where synchronized motor control is essential for operational efficiency.
