| Manufacturer | Siemens |
| Catalog number | 6sl3120-2te13-0aa3 |
| Category | Industrial automation components |
| Product type | Industrial automation components |
| Status | Active product |

Technical specification

| | |
|-----------------------------|----------|
| Weight | 5.16 kgs |
| Current | 3 A |
| Voltage | 600 V |
| Product Type | Motor |
| Industrial System | sinamics |
| Signal Type | 600 |
| Signal Level | 600 V |
| Relay Specifications | 400 VAC |

Description

The Siemens 6SL3120-2TE13-0AA3 is a dual motor module from the SINAMICS S120 series, designed for efficient power distribution in multi-axis servo drive systems. This module features a DC input of 600 V and provides an AC output of 400 V, delivering 3 A per motor. Its compact booksize frame includes internal air cooling, optimized pulse patterns, and support for extended safety integrated functions, including a DRIVE-CLiQ cable. These features make it suitable for high-performance automation applications such as CNC machines and material handling systems.
