

6SL3120-2TE15-0AA4

Industrial automation components

Manufacturer	Siemens
Catalog number	6sl3120-2te15-0aa4
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	2.40 kgs
Current	5 A
Product Type	Motor
Industrial System	sinamics
Signal Type	600
Signal Level	600 V
Relay Specifications	5 A
Voltage	600 V

Description

The Siemens 6SL3120-2TE15-0AA4 is a SINAMICS S120 Double Motor Module designed for precise control of two independent motors within industrial automation systems. This module features a DC input voltage of 600 V and provides a 3-phase AC output at 400 V, delivering 5 A per motor. Its booksize construction allows for efficient internal air cooling, and it supports extended Safety Integrated functions, including DRIVE-CLiQ cable connectivity. The module is suitable for applications requiring synchronized motor control, such as material handling systems, packaging machinery, and automated assembly lines. Key characteristics include dual motor control, high input voltage compatibility, and advanced safety features.
