

6SL3120-2TE21-0AA4

Industrial automation components

Manufacturer	Siemens
Catalog number	6sl3120-2te21-0aa4
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	4.99 kgs
Voltage	600 V
Current	9 A
Industrial System	sinamics
Signal Type	600
Signal Level	600 V
Product Type	Motor
Relay Specifications	400 VAC

Description

The Siemens 6SL3120-2TE21-0AA4 is a Double Motor Module from the SINAMICS S120 series, designed for demanding drive applications. It features a 600 V DC input and provides dual 400 V AC three-phase outputs, each rated at 9 A, suitable for precise control of induction and permanent magnet synchronous motors. The module is housed in a compact book-size form factor with internal air cooling, facilitating efficient heat dissipation in space-constrained environments. It supports optimized pulse sampling and extended Safety Integrated functions, including DRIVE-CLiQ communication, ensuring reliable and secure operation. The module is compliant with CE and cULus standards and offers a 24-month warranty for new and refurbished devices, with a 3-month warranty for used (untested) devices.
