

6SL3121-1TE15-0AA0

Industrial automation components

Manufacturer	Siemens
Catalog number	6sl3121-1te15-0aa0
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Input Voltage	600 V DC
Output Voltage	400 V
Output Current	5 A
Cooling Type	External Air Cooling
DRIVE-CLiQ Cable Included	Yes

Description

The Siemens 6SL3121-1TE15-0AA0 is a Single Motor Module from the SINAMICS S120 series, designed for industrial automation applications requiring reliable motor control. This module accepts a 600 V DC input and provides a 400 V three-phase AC output at 5 A, making it suitable for various motor control tasks within production lines. It features external air cooling to ensure efficient operation and extended component life. The module includes a DRIVE-CLiQ cable, facilitating straightforward connectivity and system setup. Manufactured by Siemens, a leading provider of industrial automation solutions, the 6SL3121-1TE15-0AA0 is engineered to meet high standards of quality and performance, ensuring dependable operation in demanding industrial environments.
