

6SL3121-2TE21-0AA3

Industrial automation components

Manufacturer	Siemens
Catalog number	6sl3121-2te21-0aa3
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	2.68 kgs
Voltage	600 V
Product Type	Motor
Industrial System	sinamics
Signal Type	600
Current	9 A
Signal Level	600 V

Description

The Siemens 6SL3121-2TE21-0AA3 is a SINAMICS S120 Double Motor Module designed for advanced industrial automation applications. This module operates with a 600 V DC input and delivers a 400 V 3-phase AC output at 9 A per channel, making it suitable for precise and efficient motor control in demanding production environments. Its booksize construction allows for external air cooling, optimizing pulse patterns and supporting extended Safety Integrated functions, including DRIVE-CLiQ cable connectivity. The module has been discontinued since September 23, 2014, with the 6SL3121-2TE21-0AA4 serving as its successor. For more detailed specifications and support, refer to the official Siemens Industry Mall page.
