### Description

The Siemens 6SL3130-6AE21-0AB0 is a Smart Line Module from the SINAMICS S120 series, designed for high-efficiency performance in industrial automation applications. This module operates with a 3-phase AC input voltage of 380–480 V at 50/60 Hz and delivers a DC output of 600 V at 17 A, providing a nominal power output of 10 kW. It features a compact booksize frame with internal air cooling and includes control voltage adapter modules. The module is painted for enhanced durability. Please note that this model has been discontinued as of September 30, 2015, and is no longer supported by Siemens. However, repair services are available to extend its operational life.
