

6SL3130-7TE23-6AA1

Industrial automation components

Manufacturer	Siemens
Catalog number	6sl3130-7te23-6aa1
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	11.34 kgs
Voltage	380 - 480 V
Current	60 A
Frequency	50 - 60 Hz
Cooling Capacity	36 kW
Signal Level	480 V
Power	36 kW
Product Type	Module
Industrial System	sinamics
Signal Type	480
Relay Specifications	480 VAC

Description

The Siemens 6SL3130-7TE23-6AA1 is an Active Line Module from the SINAMICS S120 series, engineered to enhance industrial drive systems' performance and efficiency. Designed for demanding industrial automation environments, this module supports an input voltage of 380-480 V 3 AC at 50/60 Hz and delivers a 600 V DC output with a current rating of 60 A, providing a power capacity of 36 kW. It features internal air cooling, ensuring optimal thermal management during operation. The module includes a Control Voltage Adapter and a DRIVE-CLiQ cable, facilitating seamless integration into your production setup. With its robust construction and reliable performance, the 6SL3130-7TE23-6AA1 is suitable for continuous use in production lines where uptime and efficiency are critical. Siemens' reputation for quality ensures consistent operation in automated processes, making this module a valuable component for industrial automation applications.
