

6SL3210-1SB14-0AA0

Industrial automation components

Manufacturer	Siemens
Catalog number	6sl3210-1sb14-0aa0
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	1.92 kgs
Signal Type	240
Relay Specifications	240 VAC
Voltage	200 - 240 V
Current	3.9 A
Frequency	50 - 60 Hz
Product Type	Module
Signal Level	240 V

Description

The Siemens 6SL3210-1SB14-0AA0 is a SINAMICS S120 converter Power Module PM340, designed for precise motor control in industrial applications. Operating with a single-phase input voltage of 200-240 V AC at 50/60 Hz, it delivers a three-phase output of 3.9 A, providing 0.75 kW of power. This module features a blocksize frame size FSA with an integrated line filter and internal air cooling, ensuring efficient performance and reliability. It is part of the SINAMICS S120 series, known for its high performance and flexibility in controlling the speed and torque of electric motors. The 6SL3210-1SB14-0AA0 is suitable for various applications, including manufacturing, material handling, HVAC systems, and renewable energy sectors, where precise motor control is essential. Please note that this product has been discontinued as of October 1, 2019, and is available as a spare part.
