

6SL3210-1SE16-0UA0

Industrial automation components

Manufacturer	Siemens
Catalog number	6sl3210-1se16-0ua0
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.84 kgs
Voltage	280 - 480 V
Cooling Capacity	2.2
Measurement Range	280 - 480
Signal Level	480 V
Power	2.2
Product Type	Module

Description

The Siemens 6SL3210-1SE16-0UA0 is a power module from the SINAMICS S120 series, designed for industrial drive applications. This three-phase module operates with an input voltage range of 380 to 480 V AC at 50/60 Hz and delivers a rated output current of 5.9 A, providing 2.2 kW of power. It features a blocksize frame (FSB) construction with internal air cooling, ensuring efficient thermal management. The module's compact dimensions are 153 mm in length, 165 mm in width, and 270 mm in depth, with a weight of 4 kg. This power module is suitable for various industrial applications requiring reliable and efficient power conversion.
