Ask about this product

Manufacturer	Siemens
Catalog number	6sl3244-0sa01-1aa1-6sl3225-0se17-5ua2
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Brand	Siemens
Part Number	6SL3244-0SA01-1AA1
Product Type	Frequency Converter Control Unit
Product Family	SINAMICS S120
Application Area	Industrial Automation
Control Modes	U/f, FCC, SLVC VC with encoder, Torque Control
Module Width	15 mm

Description

The Siemens 6SL3244-0SA01-1AA1 and 6SL3225-0SE17-5UA2 are integral components of the SINAMICS S120 drive system, designed for precise control and efficient operation in industrial automation applications.

The 6SL3244-0SA01-1AA1 serves as the control unit, offering advanced functionalities such as U/f control, FCC, SLVC VC with encoder, and torque control. It features a compact design with a module width of 15 mm, facilitating seamless integration into the ET 200S system.

The 6SL3225-0SE17-5UA2 functions as the power module, delivering a rated power of 0.75 kW and capable of handling overloads up to 150% for 60 seconds and 200% for 3 seconds. It operates within a voltage range of 380–480 V AC and has a module width of 65 mm.

Together, these modules provide a robust solution for applications requiring precise motor control and energy efficiency.
