

6SN1111-0AA01-2FA0

Industrial automation components

Manufacturer	Siemens
Catalog number	6sn1111-0aa01-2fa0
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	14.61 kgs
Power	120 kW
Cooling Capacity	120 kW
Product Type	Module
Power Rating	120 kW
Voltage Rating	480 V
Current Mode	Block Type
Cooling Method	Ventilation
Weight	14.63 kg

Description

The Siemens 6SN1111-0AA01-2FA0 is a main filter module from the SIMODRIVE 611 series, designed to operate with a power capacity of 120 kW. It is rated for a voltage of 480 V and utilizes block-type current mode for efficient performance. The filter is intended for use with stabilized power supplies, ensuring optimal operation in demanding industrial environments. Cooling is achieved through ventilation, maintaining the unit's performance under load. The module is CE certified, indicating compliance with European safety standards. With a weight of approximately 14.63 kg (32.25 lbs), it is suitable for integration into various automation systems requiring reliable power filtering solutions.
