

6SN1113-1AB01-0BA0

Industrial automation components

Manufacturer	Siemens
Catalog number	6sn1113-1ab01-0ba0
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	1.75 kgs
Power	25 kW
Cooling Capacity	25 kW
Product Type	Pulsed Resistor Module
Product Family	SIMODRIVE 611
Power Capacity	0.3 kW
Maximum Power Capacity	25 kW
Dimensions	480 x 270 x 50 mm
Weight	0.37 kg

Description

The Siemens 6SN1113-1AB01-0BA0 is a pulsed resistor module from the SIMODRIVE 611 series, designed to manage internal resistance for high-efficiency industrial drives. Engineered for compatibility with 0.3/25 kW universal housings and a depth of 211/288 mm, this unit ensures reliable energy dissipation during dynamic load conditions. The module features a rated output of 0.3 kilowatts and a maximum power capacity of 25 kilowatts, making it suitable for various industrial applications requiring efficient braking and safe operation of drive systems. Manufactured with high-quality materials, this module delivers consistent performance and durability, making it a dependable choice for maintaining production line uptime. The 6SN1113-1AB01-0BA0 is particularly suitable for integration in applications where fast delivery and high product availability are essential, thanks to its robust stock presence and sustainable refurbished options.
