

6SN1114-0AA01-0AA0

Industrial automation components

Manufacturer	Siemens
Catalog number	6sn1114-0aa01-0aa0
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.05 kgs
Current	611 A
Product Type	Module
Product Family	SIMODRIVE 611-A
Application Area	Industrial Automation
Dimensions	120 mm x 60 mm x 20 mm
Weight	1.00 kg
Operating Temperature Range	0°C to 55°C

Description

The Siemens 6SN1114-0AA01-0AA0 is a specialized setting module designed for the SIMODRIVE 611-A system, serving as a critical spare part for feed modules with enhanced interfaces. This component is essential for maintaining precise control and ensuring seamless communication between system components within demanding industrial automation environments. Whether implemented in new installations or used to service existing production lines, the 6SN1114-0AA01-0AA0 is engineered to provide the high-level reliability needed to minimize operational downtime and maintain system efficiency. Key features include compatibility with SIMODRIVE 611-A systems, enhanced interface support for feed modules, and robust construction for demanding industrial applications.
