

6SN1118-0AD11-0AA0

Industrial automation components

Manufacturer	Siemens
Catalog number	6sn1118-0ad11-0aa0
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.07 kgs
Current	611 A
Product Type	Module
Compatibility	1FT5 Motors
Interface	Standard Interface
Dimensions	130 mm x 320 mm x 50 mm
Weight	0.36 kg
Compatible Motors	1FT5
Application Area	Industrial Automation

Description

The Siemens 6SN1118-0AD11-0AA0 is a SIMODRIVE 611-A closed-loop plug-in control unit designed for single-axis feed drives utilizing 1FT5 motors with a standard interface. This control unit is engineered to provide precise and reliable control in various industrial automation applications, particularly in systems requiring high-performance motion control. Key features include compatibility with 1FT5 motors, a standard interface for seamless integration, and a robust design suitable for demanding operational environments. The unit's specifications ensure optimal performance and longevity, making it a valuable component for enhancing the efficiency and reliability of automation systems.
