

6SN1118-0AD11-0AA1

Industrial automation components

Manufacturer	Siemens
Catalog number	6sn1118-0ad11-0aa1
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.38 kgs
Current	611 A
Product Type	Module
Dimensions	135 mm x 315 mm x 46 mm
Weight	0.34 kg
Operating Temperature Range	0°C to 55°C
Standard Interface	1FT5
Product Family	6SN1118

Description

The Siemens 6SN1118-0AD11-0AA1 is a plug-in closed-loop control unit from the SIMODRIVE 611-A series, designed for precise control in industrial automation systems. This unit is specifically engineered for feed drives utilizing the 1FT5 standard interface, ensuring seamless integration and reliable performance. With dimensions of 135 mm in height, 315 mm in length, and 46 mm in width, it is compact yet robust, suitable for various industrial applications. The unit weighs approximately 0.34 kg, facilitating easy installation and maintenance. Operating within a temperature range of 0°C to 55°C, it is built to withstand diverse environmental conditions. The 6SN1118 series is renowned for its durability and efficiency, making the 6SN1118-0AD11-0AA1 an excellent choice for enhancing the performance and reliability of automation systems.
