

6SN1118-0DB11-0AA0

Industrial automation components

Manufacturer	Siemens
Catalog number	6sn1118-0db11-0aa0
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.39 kgs
Number of Axes	2
Control Mode	Digital
Supply Voltage	5 V DC
Power Consumption	5 W
Auxiliary Supply Current	4 A
Connector Type	D-sub connectors
Degree of Protection	IP20

Description

The Siemens 6SN1118-0DB11-0AA0 is a closed-loop plug-in control unit designed for precise digital control of two axes in industrial automation systems. Part of Siemens' SIMODRIVE 611-D series, this unit is tailored for digital feed drives without a direct measuring system. It operates with a supply voltage of 5 V DC and consumes a maximum of 5 W, ensuring efficient performance. The unit requires an auxiliary supply current of 4 A and features D-sub connectors for seamless integration. With a weight of approximately 0.39 kg, it is suitable for applications requiring compact and reliable control solutions.
