

## 6SN1118-0DG11-0AA0

Industrial automation components

<b>Manufacturer</b>	Siemens
<b>Catalog number</b>	6sn1118-0dg11-0aa0
<b>Category</b>	Industrial automation components
<b>Product type</b>	Industrial automation components
<b>Status</b>	Active product

### Technical specification

<b>Weight</b>	0.60 kgs
<b>Product Type</b>	Plug-In Control Unit
<b>Product Family</b>	SIMODRIVE 611-D
<b>Application Area</b>	Industrial Automation
<b>Dimensions</b>	140 mm x 315 mm x 46 mm
<b>Weight</b>	0.76 kg

### Description

The Siemens 6SN1118-0DG11-0AA0 is a Plug-In Control Unit from the SIMODRIVE 611-D series, designed for precise control of a single digital drive axis. This unit is specifically engineered for applications requiring feed and main spindle control without a direct measuring system. Manufactured in Germany, it exemplifies Siemens' commitment to quality and reliability in industrial automation components. The 6SN1118-0DG11-0AA0 is compatible with both feed and return systems, offering flexibility in various industrial settings. Its robust design ensures seamless integration into existing automation systems, providing efficient and dependable performance. This control unit is ideal for industries where precise motion control is essential, such as manufacturing and processing sectors. Its compact dimensions and straightforward installation process make it a practical choice for enhancing automation capabilities.
