

6SN1118-0DG23-0AA0

Industrial automation components

Manufacturer	Siemens
Catalog number	6sn1118-0dg23-0aa0
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	0.10 kgs
Product Type	SIMODRIVE 611-D Closed-Loop Plug-In Control Unit
Axis Control	1-Axis
Drive Type	Digital Drive
Measuring System	Direct Measuring System with Voltage Signals
Product Lifecycle	Discontinued

Description

The Siemens 6SN1118-0DG23-0AA0 is a SIMODRIVE 611-D closed-loop plug-in control unit designed for single-axis digital drive applications. This unit provides precise performance control for feed and main spindle drives, utilizing direct measuring systems with voltage signal inputs to ensure accurate motor operation. It is compatible with digital drives, including feed and main spindle drives, and supports direct measuring systems with voltage signal inputs, enhancing feedback accuracy. The unit is designed for industrial automation applications requiring precise motor control and is suitable for integration into existing SIMODRIVE 611-D systems. Please note that this product has been discontinued and is no longer available for purchase.
