

6SN1118-0DH21-0AA0

Industrial automation components

Manufacturer	Siemens
Catalog number	6sn1118-0dh21-0aa0
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.81 kgs
Product Type	Digital Control Loop Block
Series	6SN1118
Operating Temperature Range	0°C to 55°C
Operating Temperature Range	0°C to 55°C
Weight	0.8 kg
Manufacturer	Siemens
Compatibility	SIMODRIVE 611 Drive System

Description

The Siemens 6SN1118-0DH21-0AA0 is a digital control loop block from the 6SN1118 series, designed for integration with the SIMODRIVE 611 drive system. Manufactured by Siemens, this module serves as a closed-loop control unit for digital drives, specifically tailored for feed and main spindle drives without a direct measuring system. It operates efficiently within an ambient temperature range of 0°C to 55°C, ensuring reliable performance in various industrial environments. The module's compact design facilitates easy integration into existing systems, making it a valuable component for applications requiring precise and efficient motor control.
