

6SN1118-0DH22-0AA1

Industrial automation components

Manufacturer	Siemens
Catalog number	6sn1118-0dh22-0aa1
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.27 kgs
Product Type	Digital Control Loop Block
Compatible With	SIMODRIVE 611-D Drive System
Number of Axes	2
Dimensions	50 mm x 120 mm x 315 mm
Weight	0.66 kg

Description

The Siemens 6SN1118-0DH22-0AA1 is a high-performance digital control loop block designed for the SIMODRIVE 611-D drive system. This module serves as a closed-loop plug-in performance control unit, facilitating precise and reliable control in industrial applications. It supports dual-axis operation, integrating both feed and main spindle drives with a direct measuring system for current signals, thereby enhancing system efficiency and reliability. Manufactured in Germany, this unit exemplifies Siemens' commitment to advanced industrial solutions. The 6SN1118 series is known for its robust performance and adaptability in various industrial settings, making it a valuable component for automation systems requiring high precision and reliability.
