

6SN1118-0DK21-0AA0

Industrial automation components

Manufacturer	Siemens
Catalog number	6sn1118-0dk21-0aa0
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.28 kgs
Product Type	Closed-Loop Plug-In Control Unit
Axis Configuration	2-Axis
Control Type	Closed-Loop
Software Requirements	NC software updates from 06.04.09
Manufacturer	Siemens

Description

The Siemens 6SN1118-0DK21-0AA0 is a high-performance, two-axis closed-loop control plug-in unit designed for the SIMODRIVE 611 digital drive system. Manufactured by Siemens, this module is integral to precise and efficient motion control applications, particularly in feed drive (FD) and main spindle (MSD) control systems. It requires NC software updates starting from 06.04.09, ensuring compatibility with the latest control technologies. Engineered in Germany, the 6SN1118-0DK21-0AA0 is built to meet the rigorous demands of industrial automation environments, offering reliability and exceptional performance. Its compact design facilitates easy integration into existing systems, making it a valuable component for enhancing operational efficiency in various industrial sectors.
