

6SN1118-0DM11-0AA1

Industrial automation components

Manufacturer	Siemens
Catalog number	6sn1118-0dm11-0aa1
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.24 kgs
Product Type	Plug-in Closed-Loop Control Unit
Number of Axes	2 axes
Control Type	Closed-Loop
Mounting Orientation	Vertical
Cooling Method	Natural Ventilation

Description

The Siemens 6SN1118-0DM11-0AA1 is a two-axis plug-in closed-loop control unit from the SIMODRIVE 611-D series, designed for precise management of digital drive systems. This unit supports both Feed Drive (FDD) and Main Spindle Drive (MSD) applications, providing reliable performance without the need for a direct measuring system. It offers standard closed-loop control, ensuring consistent operation in industrial automation environments. The 6SN1118-0DM11-0AA1 is engineered for vertical mounting and utilizes natural ventilation for cooling, making it suitable for various installation scenarios. Its compact design and robust construction ensure long-term durability and dependability for your automation needs.
