

6SN1118-1NJ01-0AA0

Industrial automation components

Manufacturer	Siemens
Catalog number	6sn1118-1nj01-0aa0
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.35 kgs
Product Type	1-Axis Control Unit
Dimensions	47 mm x 130 mm x 320 mm
Weight	0.60 kg
Product Lifecycle	PM490: Start of final year of support
Repairable	Yes

Description

The Siemens 6SN1118-1NJ01-0AA0 is a versatile control module from the SIMODRIVE 611 series, designed for precise resolver speed and torque setpoint positioning in industrial automation applications. This 1-axis control unit offers expandable options, enhancing its functionality to meet various performance requirements. It ensures accurate motor control, making it essential for maintaining efficient production processes. Despite reaching the start of its final year of support as of PM490, the 6SN1118-1NJ01-0AA0 remains repairable, allowing for extended usability beyond its phase-out date of 30.09.2013. Opting for repairs over replacement can significantly prolong the product's operational life, ensuring continued performance in existing systems. UNIS Group provides comprehensive repair services, emphasizing cost-effective maintenance strategies that support the long-term performance of this unit.
