

6SN1121-0BA11-0AA1

Industrial automation components

Manufacturer	Siemens
Catalog number	6sn1121-0ba11-0aa1
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.45 kgs
Product Type	Module
Current	611 A
Weight	0.6 kg
Product Line	SIMODRIVE 611-A
Product Series	SIMODRIVE 611
Manufacturer	Siemens
Dimensions	50 mm x 140 mm x 320 mm

Description

The Siemens 6SN1121-0BA11-0AA1 is a SIMODRIVE 611-A plug-in closed-loop control unit designed for main spindle drives with single-phase, universal version compatibility. Manufactured in Germany, this unit offers exceptional performance across various operating conditions. It is currently in the start of its final year of support, aligning with the manufacturer's PM490 phase-out process, with the official phase-out date set for 30.09.2018. Despite nearing its end-of-support phase, the 6SN1121-0BA11-0AA1 remains repairable, a significant consideration for minimizing downtime and reducing costs. By opting for repairs rather than replacement, users can extend the product's lifecycle, ensuring continued functionality without the need for immediate upgrades. UNIS Group offers extensive repair services for this model, providing an effective solution for maintaining the DRIVE's performance and longevity.
