Manufacturer	Siemens
Catalog number	6sn1122-0ba12-0aa0-software-amm-v21
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Product Type	Control Module
Product Family	SIMODRIVE 611-A
Interface Type	Analog
Motor Type	Asynchronous
Control Mode	Analog Speed Control via Potentiometer

Description

The Siemens 6SN1122-0BA12-0AA0 is a control module from the SIMODRIVE 611-A series, designed for asynchronous motor drives. It features an analog interface and a motorized potentiometer, enabling precise speed control in industrial applications.

This module is ideal for retrofitting or maintaining existing SIMODRIVE installations and is commonly used in CNC machines and other machinery requiring analog speed regulation. The 6SN1122-0BA12-0AA0 operates with firmware versions up to 2.xx and is compatible with standard Siemens motors.

For commissioning, the startup software is available under catalog number E86060–K4460–A101–A8. Please refer to the SIMODRIVE 611 analog Start–Up Guide (IAA) for detailed instructions.
