

6SN1122-0BA12-0AA0

Industrial automation components

Manufacturer	Siemens
Catalog number	6sn1122-0ba12-0aa0
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	0.15 kgs
Current	611 A
Product Type	Module
Weight	1 kg
Manufacturer	Siemens
Part Number	6SN1122-0BA12-0AA0
Category	Podzespoły automatyki przemysłowej

Description

The Siemens 6SN1122-0BA12-0AA0 is a SIMODRIVE 611-A closed-loop plug-in control unit designed for induction motor drives. It features an analog interface and a motorized potentiometer, enabling precise control and fine-tuned adjustments in various industrial applications. Manufactured by Siemens, this unit exemplifies the company's commitment to quality and reliability. Despite its phase-out date of September 30, 2008, the 6SN1122-0BA12-0AA0 remains a viable option for maintaining legacy systems, offering repairable status that extends its usability. Opting for repairs over replacements can significantly reduce costs and environmental impact, making it a sustainable choice for businesses seeking to prolong the operational life of their equipment.
