

6SN1123-1AA00-0HA1

Industrial automation components

Manufacturer	Siemens
Catalog number	6sn1123-1aa00-0ha1
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	2.30 kgs
Current	8 A
Product Type	Module
Relay Specifications	8 A
Output Current	8 A
Input Voltage (Regulated)	600 V or 625 V DC
Input Voltage (Unregulated)	UDC link=USupply 1.35 V
Module Width	50 mm
Weight	5.6 kg

Description

The Siemens 6SN1123-1AA00-0HA1 is a single-axis power module from the SIMODRIVE 611 series, designed for precise motor control in industrial applications. This module delivers a continuous output current of 8 A with internal cooling, suitable for various motor types, including 1FT5, 1FT6, and asynchronous motors. It operates efficiently with a regulated input voltage of 600 V or 625 V DC and an unregulated input voltage of UDC link=USupply 1.35. The module's compact design features a width of 50 mm and a weight of 5.6 kg, facilitating easy integration into existing systems. Its internal cooling mechanism ensures reliable performance in demanding environments. This power module is ideal for applications requiring precise motor control and reliable performance.
