

6SN1124-1AA00-0HA1

Industrial automation components

Manufacturer	Siemens
Catalog number	6sn1124-1aa00-0ha1
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	4.58 kgs
Product Type	Module
Current	8 A
Relay Specifications	8 A
Motor Rated Current (1FT5)	4 A
Motor Rated Current (1FT6)	3 A
Motor Rated Current (Asynchronous)	3 A
Dimensions	50 mm x 300 mm x 490 mm
Weight	6.00 kg

Description

The Siemens 6SN1124-1AA00-0HA1 is a single-axis power module from the SIMODRIVE 611 series, designed for precise motor control in industrial automation applications. This module supports external cooling and is rated for a continuous current of 8 A, with specific motor-rated currents: 4 A for 1FT5 motors, 3 A for 1FT6 motors, and 3 A for asynchronous motors. Its robust design ensures reliable performance in demanding environments. The module's dimensions are 50 mm in height, 300 mm in width, and 490 mm in length, with a weight of 6.00 kg. As of September 30, 2014, this model has been discontinued, but it remains repairable, extending its usability in existing systems. For detailed specifications, refer to the datasheet provided by UNIS Group.
