

6SN1124-1AA00-0LA2

Industrial automation components

Manufacturer	Siemens
Catalog number	6sn1124-1aa00-0la2
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	10.86 kgs
Current	108 A
Product Type	Module
Relay Specifications	108 A
Motor Rated Current	108 A
Motor Type Compatibility	1FT5, 1FT6, Asynchronous Motors
Repairable	Yes
Motor Rated Current (Feed)	45 A
Motor Rated Current (Main Spindle)	45 A
Manufacturing Country	Germany

Description

The Siemens 6SN1124-1AA00-0LA2 is a high-performance power module from the SIMODRIVE 611 series, engineered for one-axis operation with external cooling. Designed to handle a motor rated current of 108 A, it is ideal for demanding industrial applications requiring robust and reliable performance. This module is compatible with various motor types, including 1FT5, 1FT6, and asynchronous motors, each with specific rated currents. Manufactured in Germany, it reflects Siemens' commitment to quality and precision engineering. The 6SN1124-1AA00-0LA2 is repairable, offering a cost-effective solution for extending the operational life of existing systems. Opting for repair over replacement can lead to significant savings and reduced downtime. UNIS Group provides specialized repair services for this module, ensuring its continued functionality and performance.
