

## 6SN1124-1AA00-0LA3

Industrial automation components

<b>Manufacturer</b>	Siemens
<b>Catalog number</b>	6sn1124-1aa00-0la3
<b>Category</b>	Industrial automation components
<b>Product type</b>	Industrial automation components
<b>Status</b>	Active product

### Technical specification

<b>Weight</b>	11.79 kgs
<b>Current</b>	108 A
<b>Product Type</b>	Module
<b>Input Current</b>	108 A
<b>Cooling Type</b>	External
<b>Motor Type</b>	1PH, Induction
<b>Motor Rated Current</b>	45 A
<b>Axis Control</b>	1 axis
<b>Product Series</b>	SIMODRIVE 611
<b>Manufacturer</b>	Siemens

### Description

The Siemens 6SN1124-1AA00-0LA3 is a power module from the SIMODRIVE 611 series, designed for precise control in industrial automation applications. This module operates with an input current of 108 A and features external cooling, making it suitable for demanding environments where efficient heat dissipation is essential. It is compatible with various motor types, including 1PH and induction motors, with rated currents of 45 A. The module's robust design ensures reliable performance in applications such as CNC machinery, robotics, and other automated systems requiring high power and precision.
